Dear Julius:

We are sending you today, via UPS, one each of every label of every product in our line. I am requesting Krause Milling Company to send you one each empty Wheat Paste and Vinyl Adhesive bag direct from their plant.

In some instances we had to send you lithographed cans and some bags. Be sure and open all of the gallon cans as some of the smaller cans are inside the larger ones. Also, in one of the cans is an old Water Putty package which has the asbestos warning on it.

Along with this letter I am enclosing an SX Joint Cement, Combination Joint, Cement, and a Dramex Texture Paint overwrap showing the asbestos warning. These are the only labels I could find with the warning on them.

I will send you all of the information such as name of raw material, supplier's name and address, etc. on all of the non-asbestos formulas as soon as I receive Toms River's supplier information. Hopefully, I will be able to get this off to you tomorrow.

Regards,
