Jackson Laboratory

SECOND QUARTER  
Cumulative List

Technical Reports (C&P-JL(KN)) Issued by  
COLORED PIGMENTS SECTION  
Chemicals and Pigments Department  
Jackson Laboratory

April 1, 1981 thru June 30, 1981

| TITLE                                                                                | AUTHOR                   | PERIOD COVERED         | REPORT NUMBER        |
|--------------------------------------------------------------------------------------|--------------------------|------------------------|----------------------|
| <del>Development of a New Process for the Preparation of a New Type of Pigment</del> | <del>J. F. Higgins</del> | <del>7/79 - 8/80</del> | <del>80-26(KN)</del> |
| New Lithol Rubine Process                                                            | H. Valdsaar              | 2/79 - 8/80            | 80-26(KN)            |
| V <sub>2</sub> O <sub>5</sub> /NaClO <sub>3</sub> QAQ Process - Chlorine Removal     | J. F. Maurer             | 4/80 - 10/80           | 80-31(KN)            |
| Semi-Finishing of CPC Green From the Chlorosulfonic Acid Process                     | R. F. Sklar              | 3/80 - 9/80            | 80-46(KN)            |
| BT-487-P By A Lower Cost-Reduced Alum Process                                        | W. A. West               | 3/79 - 11/80           | 80-47(KN)            |
| Improved Quinacridonequinone Products (XYT-915-D)                                    | A. J. Taggi              | 1/80 - 12/80           | 81-6(KN)             |
| Bleedfast, Azo Pigments                                                              | M. Toji                  | 7/79 - 12/80           | 81-7(KN)             |
| Large Particle Size Presscake of YT-828-D (YT-848-P) Hansa Yellow 10G                | J. F. Higgins            | 2/80 - 6/80            | 81-11(KN)            |
| Transparent Blue BP - KEP-479-D for "Lucite" Dispersion Lacquers                     | J. H. Braun              | 11/1/80 - 3/31/81      | 81-17(KN)            |
| N-8500 - CPC Process Improvements                                                    | P. H. Griswold           | 4/76 - 12/80           | NEWPORT 80-3(KN)     |
| Laboratory High Turbulence Drowning Unit - Improved Design                           | P. S. Britton            | 6/79 - 9/80            | NEWPORT 80-4(KN)     |
| Quinacridone Process Development - RT-243 (N-7148)                                   | L. Kilmurry              | 1/1/80 - 12/31/80      | NEWPORT 81-1(KN)     |
| "Krolor" Gloss Assistance to Plant                                                   | R. D. Nelson             | 3/80 - 3/81            | NEWARK 81-1(KN)      |
| Pigment Explosibility Testing                                                        | G. E. Crow               | 2/79 - 3/81            | NEWARK 81-2(KN)      |
|                                                                                      |                          |                        |                      |
