Re: Ernest Lee Stevens and
Carolyn Sue Stevens v.
Union Carbide Corporation
and FMC Corporation

Dear Joe:

Following up on our conversation, I called Dave Landgraf of FMC and mentioned your conversation with Harold Russell. Dave said that he would clarify with Harold that they were not waiting for us in respect to the joint defense agreement. Dave said that he had promised to get back to me on the agreement several times, but that it had not reached the "top of the pile" because the case had been so inactive. I said that I assumed that they had no problem with the principles that I had espoused in the agreement, and Dave said they did not. Copies of pertinent correspondence are attached.

Very truly yours,

Robert A. Butler
