Subject: Grant Updates
Attachments: DOT Grants - Obligated Since 01-20-25.xlsx

Committee Staff -

Please find an important update on the Department of Transportation's progress in addressing the backlog of over 3,200 awarded projects without signed grant agreements left behind from the prior administration. Since then, the Department has worked diligently to bring these awards into alignment with this Administration's priorities—particularly, a focus on delivering core infrastructure improvements that support safer, more efficient, transportation systems nationwide. We are pleased to report that meaningful progress has been made.

Attached, you'll find a spreadsheet identifying over 300 grant agreements that have been advanced as part of this effort, covering more than \$4.2B. We appreciate your continued support as we ensure that these resources deliver maximum value to the American people.

Have a nice weekend! Let me know if you have any questions,
Hannah

Hannah Matesic

Deputy Assistant Secretary for Congressional Affairs
U.S. Department of Transportation
