MINUTES

LEAD INDUSTRIES ASSOCIATION, INC.

EXECUTIVE COMMITTEE

SEPTEMBER 6, 1984

REDACTED

Mr. Meyer showed a videotape of a clip from a recent CBS Sunday Morning News program concerning lead poisoning in children. He reported that the producers of such clip had originally intended to concentrate primarily on lead in gasoline but that, after meeting with him, they shifted emphasis to lead in paint. Mr. Meyer also reported on LIA's activities, including testimony, regarding the EPA's recent proposal to curtail the amount of permissible lead in gasoline.
