Private provincial agencies

In many provinces of Canada, accident pre-
vention associations exist under the law.
Some are concerned with the safety problems
of a single industry, others comprise associa-
tions representing various industries, still
others encompass all industry within the
province. Employers assessed under the
Workmen's Compensation Act of the province
become members.

Industrial accident prevention in Canada is
largely handled by the following groups

British Columbia
British Columbia Loggers' Association (Manager),
550 Burrard St, Vancouver
