Attachments: Place 2012 Fluorosurfactants.pdf

Steve:

If you decide to use the enclosure to the Australian response letter, you should use the attached version versus the one I sent earlier.

John,

Have NAVSEA send this PDF of the Place and Field paper as an attachment instead of the one I sent you earlier. That one was a preprint which didn't have the final page numbers in the journal; in addition, there was a correction which I added to this PDF.

Steve:

Attached is a draft response with an enclosure as requested. I was not sure if you intended to send as an official

US00005771

NAVSEA letter or not. If so, the format of the letter will have to be adjusted to conform with the appropriate format.

Please let me know if this is acceptable.

R/ John
