

January 18, 1946

Mr. Philip Drinker, Chairman,
Committee on Professional Employment,
American Industrial Hygiene Association,
55 Shattuck Street,
Boston 15, Massachusetts.

Dear Phil:

I am forwarding to you herewith a letter and the attached questionnaire together with a copy of my reply, all of which I believe will be self explanatory. I am not doing this in the spirit of passing the work on to someone else, but rather out of the feeling that a committee ought to attend to its own activities without too much dabbling in it on the part of other people. I suggest that your committee handle this matter as it thinks best.

Some time ago in a letter from Patty, a statement was made to the effect that "several persons have expressed a desire to have an employment office at our meeting where files of applications and employers would be available, and arrangements set up so that contact could be made at the meeting." This also is a subject for the consideration of your committee. If this seems feasible and if there is anything you want me to do about it, I shall expect you to let me know.

Sincerely yours,

Robert A. Kehoe, M. D.
