Cities Service Oil Company
Cities Service Building
Box 245
Tulsa, Oklahoma, 74102

Dear Mr. Hansen:

Confirming my phone conversation of June 5, 1972 with your Mr. T. Diacon, enclosed are 80 pre-addressed labels marked "disposal only" for the drums of Aroclor 1232 and 1248 that are at your Cicero, Illinois (40 drums) and Camden, New Jersey (20 drums) plants. You will need to clearly indicate the drum contents on each label.

We encourage you to use return drums that meet DOT 17K Specification (55 gallon drums, 18 gauge minimum, 2 bung head; 5 gallon drums 24 gauge minimum) to prevent leakage. The outside of the return drums of Therminol FR and flush fluid should be free of fluid material.

As I explained to Mr. Diacon, our policy of free incineration applied only to our Therminol[®] FR heat transfer fluids. We do, however, offer a high temperature incineration service for proper disposal of PCB* containing fluids at 3¢/pound on fluids (e.g. your hydraulic Aroclor's) sent prepaid to our Sauget, Illinois plant.

Mr. Diacon stated that one of your plants may have approximately 4 drums of synthetic oil fluid formulated with these Aroclors. Our incineration service applies to these as well. We cannot handle aqueous fluids.

Please have the plants use the enclosed labels and send the drums freight prepaid to:

Monsanto Company
Dept. 246, Incineration
Sauget, Illinois, 62201

We will invoice you at 3¢/pound for fluid incineration.

* Polychlorobiphenyls
