Robert A. Kehoe, M.D.
Kettering Laboratory
Eden and Bethesda Avenue
Cincinnati, Ohio 45219

Dear Doctor Kehoe:

We have received your order for 500 reprints of your article entitled "The Potential Contribution of Industry to the Health of the Nation."

At the time I sent the original order form I asked whether you wished to have the preceding article, The Rutherford T. Johnstone Lectures as written by Dr. McCord included. This would not change the size of the reprint, since it will make an eight page one with or without it.

We will hold your order pending word from you.

Sincerely yours,

Sylva Gibbons
