Subject: [SPAM-Sender] Research!

Dear Sir/Madam,

I have just subscribed on your website for relevant materials which will be of great importance to my research here in China.

I am Sierra Leonean studying Master Degree in China in Environmental Engineering; at the Suzhou University of Science and Technology.

My supervisor who did her PhD in USA and I have come to final conclusion that I should do research on; removal 'Heavy Metals' in Wastewater with particular reference to **Nikel** and or **Cadmium**.

In this respect I shall be grateful if you can link me directly to your laboratory where such research is going on for relevant information for my own work here.

Wish to hear from you at your most convenient time.

Kind regards,

Ex. 6
