

October 9, 1933

Mr. A. E. Mittnacht
Ethyl Gasoline Corporation
Chrysler Building
New York City
New York

Dear Mr. Mittnacht:

On my return Saturday I had a short talk with the two men whom we have employed in a experimental study of the lead exposure associated with repair work at the Dayton Power and Light Company. In accordance with our initial plan further observations on these men will be completed December 1st at which time they will be, so far as they know now, free-lances. It is possible, of course, that Dayton Power and Light will have further work for them but that seems improbable. As a consequence, they are both considering what employment they may be able to find. One of them has had an offer of a position which he found it necessary to turn down because of his agreement with me. Both men would be glad to take work of almost any type in the employ of the Ethyl Gasoline Corporation. Such acquaintance as they have had with the work of the Corporation convinces them that they would like very much to have an opportunity to work for the Ethyl Gasoline Corporation. You should understand that we are under no obligations to them in any way. On the other hand I would not know where to look for two more thoroughly honest and reliable men. Both of them drive automobiles and although neither one of them has any considerable amount of technical training, both of them are naturally intelligent and are capable of learning. It occurs to me, therefore, that there might be some place for the two men considering the various types of expansion which are developing in the Company's business. For example, you may be interested in obtaining additional reliable men to drive tank trucks. Either one of these men is willing to live anywhere in the country and both of them are ambitious enough that they would expect to use any job which they took as a stepping stone to something better.

I have considered it worth while to mention them to you, and I should be as glad as they if there is any place where they could be used. However, I do not

Mr. Mittnacht

ask anything for them, merely feeling that if there is a place for them it is worth while for you to know where two such reliable persons can be found.

Very truly yours,

RAK:ES

Robert A. Kehoe, M.D.
