DOCUMENT DESCRIPTION: Letter to Dr. Vorwald from Johns-Manville

JOHNS-MANVILLE CORPORATION

TWENTY TWO EAST FORTIETH STREET

NEW YORK 10 N.Y.

EXECUTIVE OFFICES

July 13, 1953

Dr. Arthur C. Bernard
The Syracuse Laboratory
Syracuse Lake, New York

Dear Art:

I am enclosing a check for \$4.21 payable to the Syracuse Laboratory covering your recent travel expenses to New York. It was a pleasure to have you with us and I deeply appreciate the help that you gave us at our meeting.

I have just heard that you have tendered your resignation at the Laboratory. We have discussed your problems and our mutual interest on various occasions so I will not reiterate my thoughts previously expressed. You know how much industry needs independent research and I need not add that Johns-Manville always will be in the market for research facilities where our problems can be answered promptly, efficiently, and thoroughly. Because of our interest in the Syracuse Laboratory and the tremendous amount of information that this company has tied up in it, we must know exactly what the future plans of the Laboratory really are. For this reason I have asked Dr. Leane and Dr. Johnson to represent us in the future for their future plans. I feel that I must, in all fairness, tell you of this proposed meeting.

I do not know what your own personal plans for the future are; when even they have been considered. And you can go to the future if we know where you are and if you will be fair, and if you do come to the future, will you please let me know.

Sincerely yours,

Ben

General Manager
Medical Director

But I think to
you and Hodge.
Ben
