Procedure Bulletin Holders

Attached is a copy of the new Safety Procedure Bulletin on the General Permit. This permit contains three distinct areas - breaking into piping and equipment, work permit and vehicle entry authorization. Both the breaking into piping and equipment and vehicle entry authorization are required in all areas of the Texas City plant. The work permit is optional depending on the decision of the appropriate general superintendent.

Copies of the General Permit can be obtained from Stores under MCC No. 952057.
