Mr. J. L. Stecker
E. I. duPont de Nemours and Co.
Organic Chemicals Department
Wilmington, Delaware

Dear Joe:-

The letters to Dr. Lubs from Charles D. Russell, an attorney in Savannah, which you forwarded to John Schaefer were referred to me, and I have written to Mr. Russell concerning his questions as well as I can. Interestingly enough I already know of this case from other sources and have discussed it in some detail with a doctor in Savannah who is a friend of the claimant's employer. I will let you know how the matter turns out but if any further information comes your way, I should appreciate your forwarding it to me.

I just found out from Schaefer a few days ago that your office is now in Wilmington. I am glad to know this so that I can keep in touch with you. I hope that if any matters arise which you would like to bring to my attention or to discuss with me, you will have no hesitation in doing so.

With kindest personal regards,

I am

Very truly yours,

RAK:is

Robert A. Kehoe, M.D.
