TALLAHASSEE, Fla. – This week, Governor Rick Scott highlighted his proposal for \$180 million in tax cuts for Florida families as part of his 2018-2019 recommended budget. Since 2010, the Governor has cut taxes more than 75 times, saving Floridians more than \$7.5 billion.

Governor Scott's \$180 million tax cut package includes:

- \$73 million from a 10-day back-to-school sales tax holiday; and
- \$15 million from three one-week disaster preparedness sales tax holidays which would take place in May, June and July.
- \$67 million in savings from reducing the fee for a renewal of a regular driver's license by more than 58 percent from \$48 to \$20;
- \$20 million in savings from reducing the fee on an original regular driver's license by more than 43 percent from \$48 to \$27 and the fee on an original Commercial Driver's License by more than 10 percent from \$75 to \$67.

He is also proposing to reinstate the 18 percent reduction of eligible traffic citation fines, which was repealed in 2009 prior to Governor Scott taking office, for individuals who attend a basic driver improvement school.
