Baltimore City Health Department
WEEKLY LETTER TO THE MAYOR

Wk. 1

In his WEEKLY LETTER TO THE MAYOR dated January 7, 1972, the Commissioner of Health wrote:

Dear Mayor:

I am pleased to report that Mr. George W. Schucker, Assistant Commissioner of Health for Sanitary Services in the Baltimore City Health Department, has been reappointed a member of the Wholesome Meat Advisory Council of Maryland by Governor Marvin Mandel.

Members of the Council are appointed for a term of three years in accordance with the provisions of the Maryland Wholesome Meat Act of 1968. The eleven member council includes representatives of the State Board of Agriculture, the Agricultural Advisory Board, the State and City health departments, the Consumer Protection Division of the Attorney General of Maryland and members of the meat industry. The function of the council is to advise the State Board of Agriculture in the making of rules and regulations for meat inspection and in establishing meat production standards.

Mr. Schucker has been a member of the Baltimore City Health Department staff since 1937 and Assistant Commissioner since 1959. A graduate in civil and sanitary engineering from the Johns Hopkins University, Mr. Schucker has been instrumental in many innovations in city housing and health programs and has been recognized nationally for these efforts. He is co-author of "The Practice of Sanitation in its Relation to the Environment", a textbook utilized by public health workers and students of public health.

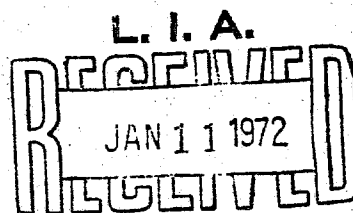

Prior to the enactment of the State Wholesome Meat Act, Baltimore City was the only subdivision maintaining a meat inspection service for the protection of Baltimore consumers. Since the city's meat inspection services were transferred to the State Board of Agriculture, the City Health Department has through its Sanitary Services and its Public Health Veterinarian maintained an active surveillance of meat products and sold in the city.

Very truly yours,

(Signed) Robert E. Farber, M.D.

Commissioner of Health

B
