Dear Coard:

Enclosed find two copies of my draft of proposed regulations.

You will note the inclusion of your suggestion with reference to metal signs.

It may be wise to include in detail specifications as to lettering on signs. I will leave that to you.

You will also note omission of reference to leaflet for handing to customers on their request. This is deliberate on my part.

I invite collective criticism, in the hope that no further changes will be required in order to handle this situation for a long time to come.

Sincerely yours,

Robert A. Kehoe, M.D.
