Subject: Pipe Coverers Physical Examinations

Inadvertently, the list of pipe coverers (Inter Office Communication dated June 7, 1972) for Primary Operations and Finishing Operations were switched resulting in you receiving the Finishing Operations list and vice versa. Please accept my apologies for this mistake and resulting confusion.

The correct list is shown below as we are still desirous of the pipe coverers obtaining a physical examination with the conditions stated in the June 7, 1972 communication.
