VISTA

November 10, 1989

Mr. Frank Motley
Vice President
National Wire & Cable
136 San Fernando Rd.
Los Angeles, CA 90031

Dear Frank:

As we have discussed, the information below is provided in response to your concerns regarding the hazards of emissions from PVC compound, specifically 309.

The specific recipe for this compound contains two substances which are capable of becoming airborne. These substances are the plasticizer, a trimellitate ester, and the stabilizer, epoxidized soybean oil. Both of these materials are considered non-hazardous under normal handling conditions. Processing temperatures may result in emissions of these substances at levels that would be detectable by odor, but not at levels that would be anticipated to cause irritation or illness. I have enclosed MSDS's for these two additives. The other compound additives are encapsulated in the PVC matrix and based on our experience do not become airborne in detectable quantities during processing. The product formulation is attached.

In regards to California Proposition 65, Vista PVC compound does contain residual vinyl chloride monomer and lead which are listed by Proposition 65.

The residual VCM levels are typically less than 1.0 ppm. The residual levels will be lower depending on storage time and additional processing steps. The lead is encapsulated in the PVC and based on our experience and sampling does not present an exposure potential.

Lastly, as you are aware, we have analyzed samples obtained from your plant to determine if the product may have contained a contaminant and if it met specifications. Based on the results, the sample product met specifications. Chemical analysis indicated a trace amount of what is believed to be a plasticizer range alcohol.

VVV 000007038

This contamination, if significant, could result in a higher odor, but would also be relatively non-toxic at any anticipated airborne levels resulting from handling of the compound.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Thomas G. Grumbles', with a stylized flourish extending to the left.

Thomas G. Grumbles, C.I.H.
Environmental Quality Manager

Section VI: Fire and Explosion Hazard Data

Flash Point (Method Used): >230 F (S.F.C.C.)	Flammable Limits: Not known
---	-----------------------------

Flammability Class: 3B

Extinguishing Media:

Foam, carbon dioxide, or dry chemical.

Special Fire Fighting Procedures:

None known; firefighters should wear self-contained breathing apparatus to avoid inhalation of smoke or vapors.

Unusual Fire and Explosion Hazards:

Treat as an oil fire.

Section VII: Reactivity Data

Stability	Unstable		Conditions to Avoid:
	Stable	X	Not applicable

Incompatibility (Materials to Avoid):

Strong oxidizing agents.

Hazardous Decomposition or Byproducts: Under severe thermal degradation, carbon monoxide and low molecular weight organic compounds may form.

Hazardous Polymerization	May Occur		Conditions to Avoid:
	Will Not Occur	X	Not applicable.

Section VIII: Health Hazard Data

Primary Routes of Entry:	Inhalation	Skin	Ingestion
	X	X	

Health Hazard (Acute Exposure):

Heated vapors and mists may irritate eyes and upper respiratory tract.

Health Hazard (Chronic Exposure):

Potential skin sensitizer which may cause skin rash with repeated or prolonged contact.

Carcinogenicity:	NTP	IARC Monographs	OSHA Regulation
	No	No	No

Signs and Symptoms of Exposure:

Irritation of eyes, skin, and upper respiratory tract.

Medical Conditions Generally Aggravated by Exposure:

Skin disorders.

VVV 000007042

Emergency and First Aid Procedures:

Inhalation: Move to fresh air. Apply artificial respiration if breathing has stopped. Get medical attention.

Skin Contact: Wash with soap and water at first opportunity.

Eye Contact: Flush with water for 15 minutes. Get medical attention.

Ingestion: Get medical attention.

Identity: Staflex NONDTM

Product Code: 48-690

Date: 10/1/87

Section IX Precautions for Safe Handling and Use

Steps to be Taken in Case Material Is Released or Spilled:

Ventilate area. Spread absorbent material and place absorbed material in a closed container. Wear protective equipment during cleanup.

Precautions to Be Taken in Handling and Storing:

Avoid prolonged or repeated inhalation of spray mists or heated vapors. Avoid prolonged or repeated skin contact.

Waste Disposal Method:

Incinerate or dispose in an approved facility in accordance with current federal, state, and local regulations.

Other Precautions:

None known.

Section X Control Measures

Respiratory Protection (Specific Type):

Use a NIOSH approved full face respirator with mist pad if material is used in poorly ventilated areas or if material is sprayed or heated.

Ventilation	Local Exhaust:	May be required if	Special:
		material is sprayed or heated.	--
	Mechanical (General):		Other:
	Recommended.		--

Protective Gloves:

Impervious chemical resistant gloves.

Eye Protection:

Chemical goggles.

Other Protective Clothing or Equipment:

As required to prevent wetting skin.

Work/Hygienic Practices:

Wash hands before eating or smoking.

Section XI Transportation Data

VVV 000007043

Shipping Name:

Plasticizers or solvents.

DOT Classification:

Non-hazardous, non-flammable.

DOT ID Number:

Not applicable.

MATERIAL SAFETY DATA SHEET

EFFECTIVE DATE: 11/01/87

Union Carbide urges each customer or recipient of this MSDS to study it carefully to become aware of and understand the hazards associated with the product. The reader should consider consulting reference works or individuals who are experts in ventilation, toxicology, and fire prevention, as necessary or appropriate to use and understand the data contained in this MSDS.

To promote safe handling, each customer or recipient should: (1) notify its employees, agents, contractors and others whom it knows or believes will use this material of the information in this MSDS and any other information regarding hazards or safety; (2) furnish this same information to each of its customers for the product; and (3) request its customers to notify their employees, customers, and other users of the product of this information.

I. IDENTIFICATION

PRODUCT NAME: FLEXOL PLASTICIZER EPO

CHEMICAL NAME: Soybean Oil, Epoxidized

CHEMICAL FAMILY: Soybean Oil, Epoxidized

FORMULA: C57 H76 O18 (approximately)

MOLECULAR WEIGHT: ~ 1000

SYNONYMS: None

CAS # and 8013-07-8

CAS NAME: Soybean oil, epoxidized

II. PHYSICAL DATA

BOILING POINT, 760 mm Hg: Decomposes

FREEZING POINT: Four point -4 C (24 F)

SPECIFIC GRAVITY (H2O = 1):
0.993 at 25/20 C

VAPOR PRESSURE AT 20°C:
<0.1 mm Hg @ 20 C

VAPOR DENSITY (air = 1):
>1

SOLUBILITY IN WATER by wt:
<0.1

EVAPORATION RATE
(Butyl Acetate = 1): <0.1

APPEARANCE AND ODOR: Clear, very pale yellow liquid; mild & characteristic odor

PERCENT VOLATILES (BY VOLUME): Nil

III. INGREDIENTS

MATERIAL	%	EXPOSURE LIMITS	HAZARD
Soybean Oil, Epoxidized (CAS# 8013-07-9)	100	None established	None currently known.

IV. FIRE AND EXPLOSION HAZARD DATA

FLASH POINT: 314 F (157 C), Pensky-Martens Closed Cup, ASTM D 93
600 F (315 C), Cleveland Open Cup, ASTM D 92

FLAMMABLE LIMITS IN AIR, % by volume: LOWER: Not determined (nonvolatile fluid)
UPPER: Not determined (nonvolatile fluid)

EXTINGUISHING MEDIA: Use water spray, carbon dioxide, dry chemical, alcohol-type, or universal-type foams applied by manufacturers' recommended techniques.

SPECIAL FIRE FIGHTING PROCEDURES: Use self-contained breathing apparatus and protective clothing.

UNUSUAL FIRE AND EXPLOSION HAZARDS: None

V. HEALTH HAZARD DATA

TLV AND SOURCE: None established by ACGIH or OSHA.

EFFECTS OF ACUTE OVEREXPOSURE:

SWALLOWING: No evidence of adverse effects from available information.

SKIN ABSORPTION: No evidence of adverse effects from available information.

INHALATION: No evidence of adverse effects from available information.

SKIN CONTACT: May cause temporary local reddening of skin.

EYE CONTACT: No evidence of adverse effects from available information.

EFFECTS OF REPEATED OVEREXPOSURE: No evidence of adverse effects from available information.

OTHER HEALTH HAZARDS: Overexposure to vapors generated at high temperatures may result in eye and respiratory tract irritation and in the inhalation of harmful amounts of material.

MEDICAL CONDITIONS AGGRAVATED BY OVEREXPOSURE: None currently known.

VVV 000007045

EMERGENCY AND FIRST AID PROCEDURES:

PRODUCT NAME: FLEXOL PLASTICIZER EPO

PAGE 3

SWALLOWING: No harmful effects expected.

SKIN: Wash with soap and water.

INHALATION: No emergency care anticipated.

EYES: Flush with water.

NOTES TO PHYSICIAN: Toxicology studies have shown the material to be of very low acute toxicity. There is no specific antidote. Treatment of overexposure should be directed at the control of symptoms and the clinical condition.

VI. REACTIVITY DATA

STABILITY: Stable

CONDITIONS TO AVOID: None

INCOMPATIBILITY (materials to avoid):
Avoid strong acids, alkalies, amines.

HAZARDOUS COMBUSTION OR DECOMPOSITION PRODUCTS:
Burning can produce carbon monoxide and/or carbon dioxide.

HAZARDOUS POLYMERIZATION: Will Not Occur

CONDITIONS TO AVOID: None

VII. SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:
Small spills: Cover with absorbent material and physically remove to a waste container. Larger spills: Collect for disposal (See Section IX).

WASTE DISPOSAL METHOD: Incinerate in a furnace or bury in a suitable landfill where permitted under appropriate Federal, State, and local regulations.

VIII. SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION:
None required in normal use (See below)

VENTILATION: General room ventilation is suitable for storage and handling at normal room temperature. Special local ventilation is recommended where EPO is processed at elevated temperatures and where vapors can be expected to escape to the air.

PROTECTIVE GLOVES: Plastic or rubber

EYE PROTECTION: Safety glasses

VVV 000007046

PRODUCT NAME: FLEXOL PLASTICIZER EPO

PAGE 4

OTHER PROTECTIVE EQUIPMENT:

Eye bath, safety shower

IX. SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE:

Normal precautions common to good manufacturing practice should be followed in handling and storage.

OTHER PRECAUTIONS:

This product is essentially insoluble in water and can float on the surface; avoid discharge to sewers or waterways.

X. REGULATORY INFORMATION

STATUS ON SUBSTANCE LISTS:

The concentrations shown are maximum or ceiling levels (weight %) to be used for calculations for regulations. Trade Secrets are indicated by "TS".

FEDERAL EPA

Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) requires notification of the National Response Center of release of quantities of Hazardous Substances equal to or greater than the reportable quantities (RQs) in 40 CFR 302.4.

Components present in this product at a level which could require reporting under the statute are:
None

**Superfund Amendments and Reauthorization
Act of 1986 (SARA) Title III**

requires emergency planning based on Threshold Planning Quantities (TPQs) and release reporting based on Reportable Quantities (RQs) in 40 CFR 355 (used for SARA 302, 304, 311 and 312).

Components present in this product at a level which could require reporting under the statute are:
None

**Superfund Amendments and Reauthorization
Act of 1986 (SARA) Title III**

requires submission of annual reports of release of toxic chemicals that appear in 40 CFR 372 (for SARA 313). This information must be included in all MSDSs that are copied and distributed for this material.
