Helicopter Might Be Submarine Antidote

A history making event took place last week in the long war against the submarine. Official tests were made of the helicopter, which, despite opposition of the Navy, has been urged by officials of the Army and War Shipping Administration for anti-submarine patrol.

Within a few hours after the

ships, with heavy consumption of fuel oil.

Moreover, the helicopter, without firing a shot, brings alarm to the submarine and causes it to dive.

Earlier acceptance of the helicopter was prevented by the Navy's Bureau of Aeronautics, which contends that the machine is defenseless against the guns of a submarine. The defenders reply that the plane can dart about so crazily that it is too evasive to be easily hit. Moreover, helicopters can be built for \$15,000 each, and the loss of a few would not be serious, compared with the loss of escort vessels.

DAMAGE WAS IMMENSE

The latest destructive Pantelleria, Axis air base, carried out by a large force carrying Warhawk and fighters and Mitchell medium bombers.

Photographs taken after the raid showed that bombs dropped caused damage, with the war particularly hard hit. Merchant ships in Pantelleria were hit, five were smashed on the numerous fires were on dock and warehouse. Warhawks skimmed miles of water to lead blasting the atrodrome, on the barracks, blowing transport plane and less port administration flames. The Mitchell, and Lightnings then work of destruction, shooting up everything including 12 to 15 small harbor and three enemy on the coast.

SICILY ALSO BATTERED

Pilots who flew over last week on reconnaissance reported that Pantelleria, 100 miles from Sicily, appeared abandoned as a base as a result of bombings and a point by Allied warships.
