Subject: Have You Heard About SAE's Scholarly Journal Program Updates?

Enhanced Author Experience & Articles

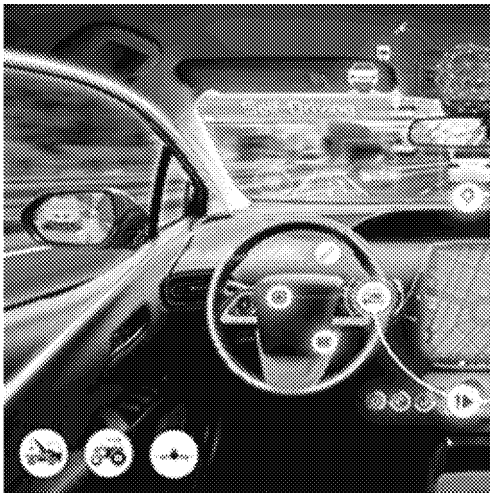

SAE is dedicated to making our Scholarly Journals program more prestigious and efficient for researchers and professors, providing the latest peer-reviewed, actionable key findings on essential topics in the mobility industry to power academic research and a more productive classroom. To take our improvements a step further, we've added two new titles regarding emerging topics critical to the future of connected vehicles and have made our submission process easier than ever before.

Transportation Cybersecurity and Privacy

This scholarly deep-dive into the Cyber Physical System (CPS)-related areas of transportation cybersecurity and privacy examines new technologies, cybersecurity engineering processes, and security economics and environments.

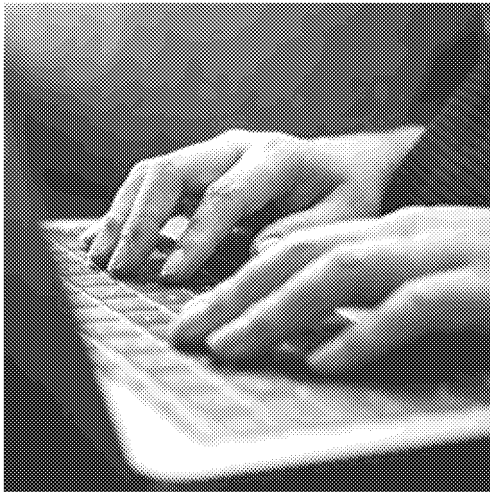

[Learn More](#)

Connected and Automated Vehicles

Promoting high-quality theoretical and applied investigations in the arena of connected and autonomous vehicles (CAVs) in various operational environments, this in-depth exploration of the lifecycle treatment of CAVs furthers the state of the art of engineering research.

Smoother Submission Process

Rolling submissions mean better content and little to no reliance on event-based papers. Our new peer-review and tracking system is the industry standard for academic research submissions, helping to facilitate the rigorous peer-review process and ensuring that only the most well-researched, archival papers are accepted.
