

**RAIN**: ...means destruction to ex... Dutch Boy White-Lead ...and dampness" out.

**SNOW**: When snow settles in crevices and corners, moisture preys on wood. Keep out the wet with Dutch Boy.

# YOU CAN'T FOOL THE WEATHER

## with a Low-Grade paint!

**SUN**: ...Dutch Boy ...

LOW-GRADE PAINT — DUTCH BOY

WHY spend your money to prove that low-grade paint won't stand up?

Look ahead to months of sun, rain and snow, and you realize that low-grade paint can't give your farm buildings the protection they need. But you know that Dutch Boy *does protect them.*

See the actual photos above: The low-grade paint — after just one year — is all *done. Now it has to be burned off. And* when the surface is repainted, a new priming coat will be needed.

*Compare this with the* Dutch Boy White-Lead job which has stood 5 years and still has a lot of wear left in it.

Dutch Boy does not crack and scale. It resists the weather... wears down stubbornly by gradual chalking which leaves a smooth, unbroken surface ... and so requires no burning and scraping and no new priming coat at repaint *time.*

It's easy to make good paint ... *pure white-lead paint* ... with Dutch Boy All-Purpose Soft Paste White-Lead. You simply stir in the proper thinner and in just a few minutes there's your paint ready to use. Indoors or outdoors. Moreover, you can tint it quickly and easily to any desirable color.

ONLY **$2.30*** *per gal.*

That's all it costs for pure white-lead paint. Easy to mix, too, from Dutch Boy All-Purpose Soft Paste.

*This price (as of April 1934) varies somewhat depending on buyer's distance from producing centers.
