Subject: TIP 2007-112 / TCEQ Taking Comment on Proposed ESL Revisions - Emerging Issues

The following document has been added to the BakerBotts/Texas Industry Project extranet.

To: Environmental Clients Group

From: David Savage and Pam Giblin

Re: TCEQ Taking Comment on Proposed ESL Revisions

TCEQ recently initiated the process of making changes to the Effects Screening Levels ("ESLs") it uses in making permitting decisions. This Thursday, July 12, 2007, TCEQ is hosting a Public Information Session in Austin concerning its proposed Development Support Documents ("DSDs") containing revised ESLs for the first round of constituents, which includes benzene. TCEQ is taking comments on the proposed changes to these ESLs until August 17, 2007.

The text of TCEQ's reminder of the Public Information Session and instructions for submitting comments is included below. For your reference, a copy of the proposed DSD for benzene is posted on the Extranet. Please let us know if you are interested in TIP commenting on this or any of the other proposed DSDs.

If you have any questions about this process, please David Savage at 512.322.2654 or david.savage@bakerbotts.com or Pam Giblin at 512.322.2509 or pam.giblin@bakerbotts.com.

I wanted to let you all know that have not heard from Judy Baldwin yet about a time for a conference call.

I know Tony is available after 10 AM CDT on Wednesday. Is everyone?
