Dear Dr. Kehoe:

I designate him since we are to the advisability of
supplying milk at cost or gratis to the workers in industries
where they are exposed to lead. We would greatly appreciate
your opinion as regards this with the reasons for same and an
account of any experiences you may have had in relation to
this.

Would you, on the other hand, advise supplying a
phosphate drink in preference to the milk?

Thanking you very kindly for this courtesy, I am

Respectfully yours,

M. Kummel, M. D.
