University of Cincinnati
Cincinnati 19, Ohio

Dear Wes:

Please accept my apologies for the long delay in replying to your request. Your letter arrived at a rather hectic time for me and was mislaid.

I am in the process of polling my committee to determine their reaction to your proposal, and will inform you of the results as promptly as possible.

Is there a possibility your tests could be conducted with less than 25 grams of hydrocarbon? This represents a huge sample to us.

Cordially,

Robert W. Schiessler
Associate Professor of Chemistry
