

TITUS

Titus designed, Titus engineered ceiling diffuser outlets for commercial heating, cooling and ventilating.

Titus Mfg. Corp. are designers and manufacturers of a complete line of Ceiling Diffusers featuring Titus unique Curved Contour Cone construction for maximum air diffusion efficiency with minimum pressure loss. Titus ceiling diffusers are furnished in beautiful metalescent aluminum finish . . . unless otherwise specified. Each diffuser is individually packaged in a sturdy damage-proof carton.

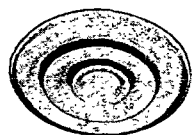

MODEL TM Fixed Cone Ceiling Diffuser

A 4-cone diffuser for exposed duct or flush mounting. Spring lock arrangement permits removal of inner cone assembly. Adjustable at factory or on job to 3 different air patterns . . . vertical, horizontal, or intermediate. SIZES: 6 in., 8 in., 10 in., 12 in., 14 in., 16 in., 18 in., 20 in., 24 in., 30 in., 36 in.

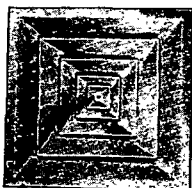

MODEL TMA Fully Adjustable Ceiling Diffuser

A 4-cone diffuser for exposed duct or flush mounting. Turn small center cone to adjust to any air pattern desired for any heating or cooling application. 3 center cones move in unison for maximum design uniformity. Removable inner cone assembly. SIZES: 6 in., 8 in., 10 in., 12 in., 14 in., 16 in., 18 in., 20 in., 24 in., 30 in., 36 in.

MODEL T-1 3-Cone Ceiling Diffuser

A 3-cone economy outlet for exposed duct or flush mounting. Removable inner cone assembly. Adjustable—on the job—to 2 air patterns by changing screws on inner cone assembly. Sponge gasket around outer edge of diffuser assures air-tight installations. SIZES: 6 in., 8 in., 10 in., 12 in., 14 in., 16 in., 18 in., 20 in., 24 in.

MODEL TMS Square Ceiling Diffuser

For exposed duct or flush mounting. Designed to deliver supply air for heating, ventilating, cooling in a 360 deg pattern. Blank-off baffles available to supply other air distribution patterns. Spring-lock arrangement allows removal of inner assembly. SIZES: 4 in., 5 in., 6 in., 8 in., 10 in., 12 in., 14 in., 16 in., 18 in.

ALSO AVAILABLE BUT NOT PICTURED: Titus MODEL TL Ceiling Diffuser, a supply air diffuser combined with lighting fixture; Titus MODEL TR combination air supply and exhaust diffuser; and Titus MODEL TH half-round supply air diffuser . . . furnished in all standard sizes.

CEILING DIFFUSER ACCESSORIES

MODEL AG-65 Combination Damper and Grid

A combination equalizing grid and damper for installation in duct take-off. Blade opens up directly into air stream permitting precision air volume control. Installs flush with duct take-off. For use with Titus Ceiling Diffuser Models TM, TMA, TMS, T-I, T-L.

MODEL AG-75 Radial Deflector Damper

Four sets of gang-operated blades distribute air evenly over diffuser or duct. Permits precision metering of air flow to any degree from full open to complete shut-off. Adjustable from face of diffuser. For use with Titus Ceiling Diffuser Models TM, TMS, TMA, T-I, TL.

MODEL AG-85 Butterfly Damper

A simple, economical damper for controlling the volume of supply air. Friction pivots on heavy gage metal blades keep blades at desired setting. Can be mounted directly on diffuser. Fully adjustable from face of diffuser. For use with Titus Ceiling Diffuser Models TM, TMA, TMS, T-I, TL.

MODEL CC Ceiling Cone (Pictured with Model TMA Diffuser)

An accessory designed to provide additional protection to ceiling and enhance appearance of ceiling diffuser unit used with it. Adapts Titus ceiling diffusers to flush mounting on exposed ductwork . . . or flush with ceiling. Furnished in metalescent aluminum finish (unless otherwise specified). Available in sizes to fit all Titus circular ceiling diffusers.

MODEL PMR Plaster Mounting Ring

A combination ceiling diffuser mounting ring and plaster stop for flush mounting Titus circular ceiling diffusers. Slips over neck of duct and secures to lathing channels (or ceiling construction used) with 2 screws. Automatically provides correct ceiling opening and centers diffuser to it. Prevents diffuser from sagging away from ceiling. Made of metal.

ALSO AVAILABLE BUT NOT PICTURED: MODEL AG-85S Supply Damper and MODEL AG-85R Exhaust Damper for use with Titus Model TR Combination Supply and Return Ceiling Diffusers; MODEL EG Equalizing Grid; MODEL AG-75½ Volume Controllers for Titus Model TH diffusers; Duct Rings and Sectorizing Baffles.
