SUBJ: CLEAN WALL AGENT TSCA STATUS

I spoke with Joe Jadlocki at ICI regarding the inventory status of the clean wall agent. He is experienced in PMN submittals as unfortunately for him that is his main responsibility at ICI.

Basically they will file the PMN, if we go forward, for the English subsidiary. At this point, he is reviewing the requirements to determine what information he might need from us, such as use conditions, environmental releases, or occupational exposure potential.

He also asked that I send him a copy of the letter I sent to EPA regarding our R & D use of the product.
