Hi Enesta,

Thank you for answering my email so soon. I have a deadline on this Friday 21, so I was wondering if it would be possible for you to tell me if you have current research about environmental health, and if you do, would you please send me information about those projects or maybe links where I could read about them? I would also appreciate if you could share information about the research centre (What you do? Why Its important your work?).

We are also interest on knowing how people can mitigate the impact of global warming on health by making individual actions, so I would be very grateful if you could share information about it too.

Thank you so much, I will be looking forward for your response.

Kind Regards,

Paula

Hi Paula,

I received your inquiry below from my colleague. Can you please share specific questions and firm deadline?

Subject: Univisión Planeta, Press Article

Hello,

My name is Paula Mogollón, I am from Colombia. I am doing an article for Univisión Planeta, where we are tracking all the places that are doing research on the impact of global warming on human health, so that people can learn about them and get to know them more thoroughly. I would be grateful if you could tell me if you are currently doing any research related to this subject, and if I could connect with the people who are doing it, so I can ask them some questions, or maybe send me information about it.

Thank you for your attention, I look forward to receive your response soon.

Best regards,

Paula
