Please prepare a new label for all container shipments of subject products.

An example of suggested format is attached.

The UL classification can be eliminated as we no longer subscribe to this service.

The waste disposal statement can be placed in the space now occupied by the UL statement.

Please indicate that waste disposal applies to U.S. customers only.

We would require use of the new label on all container shipments by November 1, 1971.

Please assure that approval is obtained on the new label by legal, medical, W. Papageorge in environmental and C. Paton in the product group prior to printing.

Copy of Circular letter will be sent to me for file
