

SOUTHERN ASBESTOS COMPANY

HIGH GRADE ASBESTOS TEXTILE PRODUCTS

CHARLOTTE, N. C. December 31, 1936.

Mr. J. C. Bremer,
General Asbestos & Rubber Division
of Raybestos-Manhattan, Inc.,
North Charleston, S. C.

Dear Mr. Bremer:

Your letter of December 24th
received.

I am very sorry that Mr. Jeffords
is still unable to return to work. Will you please
remember me to him with the hope for his speedy
recovery.

As near as I can ascertain, Walter
Hoyle, lawyer for the Lumber Mutual Casualty Company,
is interested in visiting you to learn more about
your experiences handling dust conditions at your
plant, such as:

Do you have a dust system in your
card room, and just how does it work?

Is your card room separate from
the rest of your plant?

Do you have dust systems in your
various departments?

It is my understanding that Mr. Hoyle
has had an opportunity to visit various plants, at
which points he has collected a lot of information and
wants to further this by visiting yours, especially as
it is here in the south and is freely discussed at
asbestosis trials.

A lot of asbestosis cases are coming
up for hearing January 11th. Mr. Hoyle would like to come
down January 6th or 7th. We are hopeful you will find
it convenient to give him a little time which will be

CH 0440

much appreciated and which we shall be very glad to reciprocate to you or any of the divisions of your companies.

are

Appreciating your early reply, we

Yours very truly,
SOUTHERN ASBESTOS COMPANY,

W. J. Fahl
President.
