

"They talk about Quintuplets... but there's
MORE THAN FIVE of me!"

**"What Do You Mean...
An All-Dutch Boy Job?"**

It means, first, that only Dutch Boy products will be used throughout the job... that with them you will mix paint for every type of surface... wood, plaster, metal, concrete, stucco, brick... exterior and interior. It means that all your paint materials will be just as high in quality as Dutch Boy White-Lead. And it means that not only you yourself will know of this high quality, but that your customer will know, too.

NATIONAL LEAD COMPANY

111 Broadway, New York; 116 Oak St., Buffalo; 300 W. 10th St., Chicago; 639 Freeman Ave., Cincinnati; 323 W. Superior Ave., Cleveland; 722 Chestnut St., St. Louis; 2290 24th St., San Francisco; National-Boston Lead Co., 800 Albany St., Boston; National Lead & Oil Co. of Pa., 316 Fourth Ave., Pittsburgh; John T. Lewis & Bros. Co., Widener Building, Philadelphia.

**DUTCH BOY
PAINTERS' PRODUCTS**

- 1** *Dutch Boy All-Purpose Soft Paste White-Lead*—Pure white-lead in quick-drying, time-saving form. For inside or outside paint—flat, eggshell or gloss—just pure white-lead, pure linseed oil and a little turpentine—nothing else.
- 2** *Dutch Boy Linseed Oil*—Pure linseed oil of the finest quality, sealed at the factory for your protection. Three types—raw, boiled and Standoil type—the latter a specially treated, bodied oil that improves gloss and leveling qualities.
- 3** *Dutch Boy Lead Mixing Oil*—A special oil for use with white-lead in sealing and decorating plaster, wall board, stucco, stone, concrete, brick. For flat and semi-gloss finishes of unusual beauty. Gives paint so durable it is used outside as well as inside.

- 4** *Dutch Boy Colors-in-Oil*—True in color-tone and high in tinting strength. Insure clean, sharp tints. Soft paste consistency gives quick and complete dispersion. No thinning required. All popular colors.
- 5** *Dutch Boy Wall Primer*—Sealer, primer and paint coat, all in one. Effectively stops suction on porous surfaces such as plaster and wall board. Bridges firecracks. Hides blemishes. Spreads easily. Covers far.
- 6** *Dutch Boy Liquid Drier*—Formulated for Dutch Boy jobs. A drier that safeguards your paint. Unusually strong. Properly balanced. Will not curdle or discolor the paint.
- 7** *Dutch Boy Quick-Drying Red-Lead Primer*—The paint for metal surfaces around a building—gutters, down spouts, fire escapes, fences. Provides sure protection against rust. Dries quickly enough to be painted over the same day.
