

Shop-Vac

Heavy-Duty

A comprehensive program of machines for all sanitation, institutional, commercial and professional uses. These units have been designed to exceed all heavy-duty commercial wet/dry vacuum specifications, and are ideal for daily, vigorous usage in hotel, airports, hospitals, schools, factories, restaurants and offices. All these units are designed to handle the most difficult maintenance problems and offer years of dependable service.

Wet/Dry Commercial Canister Vacs

Lightweight, powerful, portable, wet/dry canister vacs designed for use in facilities requiring operationally quiet, yet moderately priced machines. All the basic cleaning tools are included.

Two 10 gallon models available with choice of 1.25 HP (peak) High Performance motor or 1.7 HP 2-stage motor.

Stainless Steel Wet/Dry Commercial Canister Vac

Compact, powerful, portable, economically priced wet/dry vacs with quiet operation, equipped with 2-stage 1.7 HP (peak) by-pass motors.

4 gallon model available, with a rust- and corrosion-resistant stainless steel tank.
