Subject: CPI34680-JBMM25831

Leonie: The reason why we can only ship 14 M/T of R931 in a 20 foot container is, that the bulk density is much more than the other products.

This means that the material is much more fluffy than the other. Thus we can not physically pack as much in a container as the other grades. I will have Laura send you a Picture so you can see the difference. TKS.

*****EVERY MORNING, EVERYONE IN THE WORLD RECEIVES EXACTLY*****
