

STANDARD RADIOGRAPHS

improved copies from digitised images

TWO SETS AVAILABLE

The **COMPLETE SET** of radiographs

ISBN 92-2-107177-4

Price: 825 Sw.frs.; US\$500; £340; Euros 550

22 standard radiographs, illustrating the classification of small and large parenchymal opacities, pleural abnormalities and some other appearances.

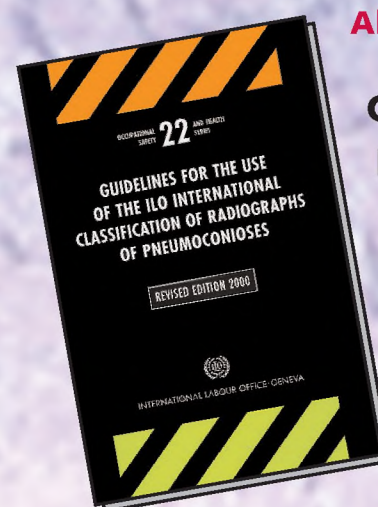

The **QUAD SET** of radiographs

ISBN 92-2-113326-5

Price: 450 Sw.frs.; US\$275; £189; Euros 300

14 standard radiographs, comprising 9 of the most frequently used standards in the *Complete Set* plus 5 (quadrant) composite reproductions of relevant parts from the other radiographs in the *Complete Set*.

Both boxed sets are compatible with, and include one copy of, the *Guidelines for the use of the ILO International Classification of Radiographs of Pneumoconioses* (Revised edition 2000).

About the Guidelines:

Guidelines for the Use of the ILO International Classification of Radiographs of Pneumoconioses

(Revised edition 2002)

The revised edition retains continuity with key features of earlier versions. It clarifies some ambiguities in the former text and modifies some of the rules for classifying pleural abnormalities. The booklet includes descriptions of each of the 22 standard radiographs in the *Complete Set*.

2002 43 pp. ISBN 92-2-110832-5 10 Sw.frs.; US\$6; £4; Euros 6.50

The ILO International Classification of Radiographs of Pneumoconioses

The Classification is designed to codify radiographic abnormalities of the pneumoconioses in a simple, reproducible manner. It represents a standard and effective tool for health surveillance, epidemiological research, and clinical diagnosis.
