

Class I and II Well Inspection Form US Environmental Protection Agency – Region 4 Underground Injection Control Program 61 Forsyth Street SW, MC 9T25, Atlanta, Georgia, 30303 Phone: (404)562-9424					Inspection ID	EPA Well ID#: F L S 1 1 3 0 0 5 3																																																													
						Year-Month-Day: 2 0 2 4 - 0 4 - 3 0																																																													
						EPA Permit # (or RA): F L I 0 0 1 2																																																													
						Page 1 Of 2																																																													
Inspector(s): Carol Chen (lead), Carla Foy Start Time: 4:19 pm																																																																			
End Time: 4:20 pm																																																																			
Facility Contact Information	Facility Name: Maverick Natural Resources, LLC (Breitburn Operating LP)																																																																		
	Street Address: 5415 Oil Plant Rd																																																																		
	City: Jay County: Santa Rosa State: FL Zip: 32565																																																																		
	Nature of Business: oil and gas production																																																																		
	Facility Owner/Operator: Maverick Natural Resources, LLC Phone: 850-675-1702																																																																		
	Email:																																																																		
	Facility Contact (if different): Al Jones, Plant Superintendent Phone: 251-227-3319																																																																		
	O/O Mailing Address: 5415 Oil Plant Rd																																																																		
City: Jay County: Santa Rosa State: FL Zip: 32565																																																																			
Well Data from File	Well Name & #: St. Regis SWDS #9-2 API No. 09-113-20174 PA No. 311634																																																																		
	Well Type (see table): Produced Water Disposal (PWD) State Permit: OG_940																																																																		
	Latitude (°N): 30.968722 Longitude (°W): -87.173917 Elevation (ft):																																																																		
	Injection Method (check applicable): ☐ Casing Injector; ☒ Tubing & Packer; ☐ Cemented Injection Tubing																																																																		
	PBTD: 6546' surface casing 9 5/8" at 2169'																																																																		
	☐ Other:																																																																		
	Total Depth (ft): 6600' Inner Casing Size (in): 7" at 2169' Tubing Size (in): 4 1/2" at 6150' Packer Depth (ft): 6150'																																																																		
	Inj. Zone: ☐ Open Hole; ☒ Perforated; Top(ft) 6285' Bottom(ft): 6500' Max. Injection Pressure (psig): 1800 psi																																																																		
Field Measurements and Observations	Latitude (°N): 30.958205 Longitude (°W): -87.166643 Elevation (ft):																																																																		
	EPA GPS ID: S75332 Well Status (see table): If not Active, Reported Date Last Active: 10/03/2012																																																																		
	Nature of Injected Fluid(s) if any:																																																																		
	General Condition of the Well Site:																																																																		
	Notes & Comments (include discrepancies from database values):																																																																		
	Injection well is inactive.																																																																		
	Tubing gauge: 0 psi																																																																		
	Production gauge: 0 psi																																																																		
Surface gauge: 0 psi																																																																			
Flow line gauge:																																																																			
See reverse for additional observations, comments and photo log
