TO MEMBERS PCB AD HOC COMMITTEE
EIA PARTS DIVISION

Re.: Change of Meeting
Date to June 1

Gentlemen:

Here for your review is a copy of the draft regulations on the marking, disposal and control of PCB as proposed by EPA under the Toxic Substances Control Act.

To give all interested industry members an opportunity to review these proposed regulations and develop company recommendations, the PCB Ad Hoc Committee meeting originally scheduled for May 26 has been postponed until Wednesday, June 1. The meeting will be held in the Board Room on the first floor of the EIA headquarters starting at 10:00 a.m.

It is most important that all industry members come to this meeting fully prepared to participate in developing a course of action as, you will note, the deadlines which EPA is proposing to impose are very short. The request to participate must be filed by June 14; comments on all issues to be dealt with must be filed by June 22, and the initial hearing has been scheduled for June 24.

As you know, special counsel already has filed comments on behalf of the PCB Ad Hoc Committee with EPA in connection with its proposed TSCA procedural rules for the promulgation of regulations and will, I am sure, have additional comments to offer on this point at your meeting.

Sincerely,

Tyler Nourse

Tyler Nourse
