

Pyrheliometer, 160
Pyrometer, 779, 795
mercurial, 779
optical, 779
radiation, 779
thermo-electric, 779

Q

Quality,
of air, 73, 79
A.S.H.V.E. ventilation standards, 81
impaired by recirculation, 83
Quantity,
of air,
A.S.H.V.E. ventilation standards, 81
blow by wind, 85
measurement of, 780
necessary for ventilation, 74, 79, 91, 189
of cooling water, 225

R

Radiant heaters, 515
Radiant heating, 705
Radiation, 795
by black body, 708
equivalent direct, 150, 601, 796
heat loss by, 65, 705
by human body, 65, 76, 705
load, 452
with oil burners, 510
by radiators, 533
solar, 160
effect on heat transmission, 160
occlusion of, 297
through glass, 63
through walls, 162
ultra-violet, 79
Radiator, radiators, 533, 795
A.S.H.V.E. code for, 541
column, 789
condensation rate in, 537
connections, 590, 616
control of, 279
correction rating factors, 541
effect of superheated steam, 535
enclosed, 537
gas-fired, 515
heat emission of, 533, 540
heating capacity of, 540
heating effect of, 536
for hot water systems, 614
output of, 534
paint, effect of, 535
panel, 794
pipe coil, 533
ratings of, 534
selection, 540
types of, 533
wall, output, 534
warm air, 504
Railway air conditioning,
air distribution, 360, 399
cooling, 401
calculation of, load, 402
capacity, 402
internal combustion engine, 401
mechanical compressor, 401
methylene chloride, 401
costs, 407
heating, 401
humidity control, 405
power supply, 406
tractive resistance, 406
temperature control, 405
ventilation, 399
Rain, as dust catcher, 304
Rates, district heating, 700

Ratings,
of air cleaning devices, 308
of boilers, 448, 517
for central fan conditioning, 193
of concealed heaters, 540
of fans, 324
of furnaces, 437
of gas-fired appliances, 517
of noises, 334
of pressure reducing valves, 583
of radiators, 534
for unit air conditioners, 193
of unit coolers, 255
of unit heaters, 241
of unit ventilators, 251
of vacuum pumps, 562
Receivers, alternating, 568
Refrigerants, 35, 208, 795
codes for use of, 187, 259
comparison of, 42
tables of, 36, 38, 40, 41
types of, 208
Refrigerating,
capacity, 41, 203
Refrigerating effect, 41
Refrigerating plant, 223, 24
compressor, 226
operating methods, 204
size of, 204
steam jet system, 205, 226
Refrigeration,
characteristics, 47
curves, 46, 47
coefficient of performance, 42
carnot cycle, 42
compression ratio, 44
