

LESSON 3: BRAKE SYSTEM TESTING AND DIAGNOSIS

Symptom-to-System-to-Component-to-Cause Diagnostic Technique

- The Workshop Manual is organized to aid in the Symptom-to-System-to-Component-to-Cause Diagnostic Technique.
- Make sure that you fully understand the symptom.
- Determine which system on the vehicle could be causing the concern.
- Then determine the component within that system that is faulty.
- Finally, determine what caused the component to fail.
