

September 25, 1930

Dr. Emery R. Hayhurst,
Department of Health,
Ohio State University,
Columbus, Ohio.

Dear Dr. Hayhurst:

I thank you very much indeed for your letter of September 22 containing the information in the case of a station attendant for the Standard Oil Company of Ohio, who has what has been diagnosed as lead poisoning.

I shall examine into this case at the earliest possible time, and I will report to you later any conclusions which we arrive at.

Very truly yours,

RAK:EJ
