Mr. Joseph A. Kelly, President
Zonolite Company
135 - South LaSalle Street
Chicago 3, Illinois

Dear Mr. Kelly:

I very much enjoyed our talk in your office the other day and immediately upon my return to Seattle discussed the entire matter with Mr. Ralph Watson, our Geologist on the west end; we are fully prepared to pursue the matter of biotite investigation in accordance with your wishes. As soon as we have the samples and analyses, Mr. Watson will locate an agronomist for you who can and will undertake to proceed with the testing.

In the event that it might be more convenient for you, Mr. Watson can arrange to be in Libby on September 18 or 19 and would be happy to discuss this matter with Mr. Bleich. The two of them could then take the samples; whichever way you prefer.

Kindest personal regards.

Sincerely,

Alva J. Haley
