

August 14, 1989

Mr. John McCauley
Department of Environmental Protection
5 Commonwealth Avenue
Woburn, MA 01801-1009

Dear John,

Confirming our conversation of August 8, you gave Bird a waiver #89-08988 to perform the following asbestos removal work after a 72 hour waiting period.

A portion of a 5' diameter steel tank was found to be covered by asbestos during demolition activities this week. A ring of asbestos approximately 2" thick by 3' high surrounds a portion of this tank which went unnoticed during the Ralco clean up activities on the Phase III asbestos removal project because it was burtied in the floor of Building FB-1.

Since this tank is exposed to the environment, I requested this waiver. Ralco will complete this one day's removal job as soon as the 72 hour waiting period is up; either Friday, 8/11/89, or Monday 8/14.

Thank you for your cooperation in this matter and your assistance throughout the length of this project.

Sincerely,

BIRD INCORPORATED
