

INTER-ORGANIZATION MEMO

Rollachula

TO: Akron

ATTENTION: H. E. Jewett

FROM: R. L. Jackson

DATE: January 10, 1984

SUBJECT: Memo H. E. Jewett to R. L. Jackson
11/16/83, RVCM Data

cc: R. W. Laundrie
~~T. W. Shopler~~
E. K. Kolinek
R. A. Poulin

Currently, all bulk and bag shipments are labeled with VCI cancer warnings - either on the bags or on the bulk loading and unloading openings.

Your request to cease labeling PVC if found that the resin contains less than 8.5 ppm RVCM seems inadvisable due to the recent promulgation of the standard for hazard communication - a copy of which is attached.

Please review and advise me in light of this new development. Plans are not to institute any changes unless advised otherwise.
