

February 27, 1979

4. J3L - Wind Speed and Direction Stations
R. I. Wevodau recommended reaffirmation of J3L with revised prices and the subcommittee agreed. A. R. Greening is to check with R. I. Wevodau on the wording in Paragraph 3.3.
5. J4L - Instrument Methods for Analysis for Sulfur Dioxide in Ambient Air
A revised draft of J4L was circulated to the subcommittee for review. J4L will be revised and reaffirmed in the draft form if no comments are received from subcommittee members by the end of the month. L. F. Percival is to provide wording for a new Paragraph 3.1.3.5, which will provide a warning that samples shipped to outside laboratories may lose part of their original SO₂ content.
6. J2N - Odor Control
J2N was reaffirmed without revisions.
7. J2P - Dispersion of Air Pollution from Isolated Sources
A revised version of J2P prepared by R. I. Wevodau was approved for typing in finished form with minor changes. It will be released for issue with author's review.
8. J4P - Evaluation of Air Pollution Abatement Methods
The revised draft of J4P dated January 22, 1979, prepared by T. A. Kittleman was approved for final typing with minor changes. It will be released for issue with author's review.
9. S11T - Priorities for Workspace Sampling for Exposure to Chemicals
A draft of C. S. Hornberger's completed two-page material data safety sheet was reviewed by the subcommittee. The two-page material data safety sheet is being used by CD&P and several other departments and is available from Stationery and Forms, General Services Department. After discussion, the subcommittee agreed that the two-page form should be added to S11T to supplement the existing four-page form. C. S. Hornberger is to revise S11T to incorporate the new material data safety sheet and forward the revised standard to A. R. Greening for typing.
10. S4T - Measurement and Control of Asbestos Dust Exposure
Proposed changes to S4T were reviewed by the subcommittee; however, the decision on changing the standard was deferred until an Ad Hoc Committee of I. F. Percival, S. W. Dixon, and H. J. Randolph make a general review of S4T and OSHA 1910.1001 requirements. The Ad Hoc Committee is to have a revised draft of S4T ready for review at the April meeting.
11. Monitoring Devices
In regard to the monitoring devices being developed by F&F Department and discussed at the Beaumont meeting, a representative from F&F will be at the April 5, 1979, meeting to review the opinions of the subcommittee members of potential interest in these devices.
