INSTRUCTIONS FOR USE OF EXEMPT USE CERTIFICATES

1. Good Faith In general, a vendor who accepts an exemption certificate in "good faith" is relieved of liability for collection or payment of tax upon transactions covered by the certificate. The question of "good faith" is one of fact and depends upon a consideration of all the conditions surrounding the transaction. A vendor is presumed to be familiar with the regulations pertinent to the business in which he deals.

In order for "good faith" to be established, the following conditions must be met:

- (a) The certificate must contain no statement or entry which the vendor knows, or has reason to know, is false or misleading.
- (b) The certificate must be an officially promulgated certificate form or a substantial and proper reproduction thereof.
- (c) The certificate must be dated and executed in accordance with the published instructions, and must be complete and regular in every respect.

The vendor may, therefore, accept this "good faith" Exempt Use Certificate on a basis for exempting sales to the signatory purchaser provided that:

- (d) The purchaser's Certificate of Authority number, indicating that the purchaser is registered with the New Jersey Division of Taxation, is entered on the face of the Certificate.
- (e) The purchaser has entered all other information required on the form.
- (f) The vendor has no reason to believe that the property to be purchased is of a type not ordinarily used in the purchaser's business for the purpose described in this Certificate.

2. Improper Certificate—Sales transactions which are not supported by properly executed exemption certificates shall be deemed to be taxable retail sales. The burden of proof that the tax was not required to be collected is upon the vendor.

3. Correction of Certificate In general, vendors have 60 days after date of sale to obtain a corrected certificate where the original certificate lacks material information required to be set forth in said certificate or where such information is incorrectly stated.

4. Additional Purchases by Same Purchaser—This Certificate will serve to cover additional purchases by the same purchaser of the same general type of property. However, each subsequent sales slip or purchase invoice based on this Certificate must show the purchaser's name, address and Certificate of Authority number for purposes of verification.

5. Retention of Certificates Certificates must be retained by the vendor for a period of not less than three years from the date of the last sale covered by the certificate. Certificates must be in the physical possession of the vendor and available for inspection on or before the 60th day following the date of the transaction to which the certificate relates.

6. The most common exempt uses for which the Exempt Use Certificate (Form ST-4) is applicable are the following:

Sales of machinery, apparatus or equipment for use or consumption directly and primarily in the production, generation, transmission or distribution of gas, electricity, refrigeration, steam or water for sale or in the operation of sewerage systems. [N.J.S.A. 54:32B-8 (m) (2)]

Sales of tangible personal property purchased for use or consumption directly and exclusively in research and development in the experimental or laboratory sense. Such research and development shall not be deemed to include the ordinary testing or inspection of materials or products for quality control, efficiency surveys, management studies, consumer surveys, advertising, promotions or research in connection with literary, historical or similar projects. [N.J.S.A. 54:32B-8 (n)]

Sales or use of wrapping paper, wrapping twine, bags, cartons, tape, rope, labels, nonreturnable containers, reusable milk containers and all other wrapping supplies when such use is incidental to the delivery of personal property which has been sold. [N.J.S.A. 54:32B-8 (o)]

Sales of materials, such as chemicals and catalysts, used to induce or cause a refining or chemical process, where such materials are an integral or essential part of the processing operation, but do not become a component part of the finished product. [N.J.S.A. 54:32B-8 (1)]

The sale of advertising materials to be published in a newspaper. [N.J.S.A. 54:8 (ea)]

The use of property for market sampling by the purchaser. [N.J.S.A. 54:32B-11 (4)]

REPRODUCTION OF EXEMPT USE CERTIFICATE FORMS: Private reproduction of Exempt Use Certificates may be made without the prior permission of the Division of Taxation.
