Mr. Thomas Kopp
Office of Toxic Substances
Environmental Protection Agency
Washington, D.C. 20460

Dear Mr. Kopp:

Enclosed please find a copy of the letter from the Fine Chemical Company, Inc. which we received within the past week.

We will be responding directly to Fine Chemical indicating to them our suggestions for disposing of the material as opposed to any further sale.

Thank you for your help in this matter.

Sincerely,

Thomas H. Bottini
Attorney

FINE CHEMICAL COMPANY, INC.

250 WEST 57TH STREET

NEW YORK, N. Y. 10019

April 1, 1976

Monsanto Chemical Company
800 No. Lindbergh Blvd.
St. Louis, Mo. 63166

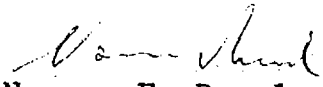

Gentlemen:

A firm has notified us that they have for sale four
500 lb. drums and ten 50 lb. drums of Aroclor 4465.
This material was purchased from Monsanto.

We believe you have discontinued temporarily or per-
manently the manufacture of certain aroclors and if
you know of someone in need of this material, we
would appreciate your letting us know.

If any of your customers wish to return materials
for credit which you do not want to receive, please
let us know and we will be glad to try to be of help
to them as brokers and not as profiteers.

Sincerely,

Norman F. Ravel
