Gentlemen:

WELDGARD is the bright orange contribution to the colorful world of GARDIAN asbestos products.

Introduced in late 1974, this material has received outstanding acceptance in the aircraft, steel, nuclear, power generation and welding supply industries and wherever the job requires visibility and quality for protection against heat and fire.

There is a better way and we have it in the clean, colorful GARDIAN line. For more information on WELDGARD and the complete quality line of GARDIAN asbestos products return the enclosed card.

Sincerely,

Alexander Smith
Vice President - Sales
