Industrial Hygiene Foundation
4400 Fifth Avenue

Dear Hal:

At my suggestion Mr. DeWitt Huffman of the Ohio Industrial Commission has written you about membership in the Foundation. He would like to take a more active part in Foundation activities beginning, for example, with participation in your annual engineering conference.

I'm not sure how you do this with your various classes of membership. If governmental agencies as such are not eligible for full participation in conference activities, here's another angle. The Division of Safety and Hygiene, in which Mr. Huffman is an industrial hygiene engineer, provides survey and consultation service in industrial hygiene to other branches of the state government. This is analogous to the way we, for example, provide industrial hygiene consultation to our various O-I plants.

Mr. Huffman personally is a well-qualified industrial hygiene engineer with much practical experience.

Personal regards.
