INTER-OFFICE
CORRESPONDENCE

Dr. R. A. Kehoe

Dear Dr. Kehoe:

I have your letter of July 12, relative to writing Mr. Loder on the [REDACTED] case.

We have had some discussion of the situation this morning and I understand Mr. Loder will write you further on it.

There is no particular reason, however, why you should not give the Travelers' representative any information regarding the case which he may request.

So that I may be kept informed of anything having to do with the tank cleaning problem or accidents resulting therefrom, I would very much appreciate receiving copies of anything which you may write to our division offices or to anyone within our organization on this subject. I have seen and made a copy of the letter which you wrote Mr. Loder for my records, but there is always a chance that such reports may not come to my attention, - hence the request that a copy be sent to me.

Very truly yours,

M/R
