Confirming our phone conversation, please enter Kelsey Hayes Purchase Order #A8B061880 for \$46,000 worth of tooling to make the Outer Part #101065-01 and \$46,000 worth of tooling to make the Inner Part #101066-01. The formula is to be 720, Abex to obtain all raw materials from Essen.

At this time, do not ask the manufacturing people to have Aimco build the tooling for the steel backs. This is still being negotiated. All the other tooling, however, is to be built.

They require samples by the first of December and production by February 1, 1979. The estimated monthly usage will be about ~~40,000~~ each of the Outers and Inners.
